

David Harmon Studios

PHOTOGRAPHY

Although team photos and individual shots are great to look back on, they never truly describe that season like a great action shot. That's where David Harmon Studios can help. While playing multiple sports from grade school through high school, which continued onto a Division I college career, sports have always played a major role in my lifestyle. As an avid photographer since the age of 15, I am now using my athletic perspective to capture those great action shots. With a creative architectural background, my studio has also begun to incorporate some artistic modifications; which turn these shots into even more dramatic and creative story boards. Please scroll through my featured gallery and discover some of my work.
